

Let's look in the **ROTUNDA**.

The Goldfish Club

This was a club for aircrew who survived bailing out of their aircraft (which means escaping from it) and parachuting into the sea, or whose aircraft crashed in the sea. **Can you find the badge?**

What is the name of the pilot who was given it?

Dogs are a man's best friend...

Lots of RAF aircrew had dogs as pets who lived with them on base. They could keep them company whilst they were waiting for their next mission.

Many of the aircrew in this room have a picture taken with their dog.

How many dogs can you find?

Rip was the dog who was awarded a medal for helping to find people trapped in the Blitz. Can you find Rip?

Which medal was Rip given?

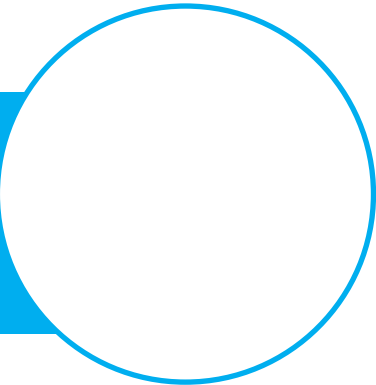

Can you spot the other mascot who isn't a dog?

Whose mascot was this penguin?

Well done, you've finished.

Remember to collect your stamp from Reception.

Indoor Animal Trail

Hello, my name is **Scramble**.

What is your name?

I'm the museum's mascot, and I'm here to show you all the different animals that can be found in this museum.

Let's start in the **ENTRANCE HALL**, the first room people see when they come into this house. Here we can see some really **powerful animals**.

Where are the Lion and the Dragon?

Make sure to look all around the room. Tick below when you find them.

Indoor Animal Trail

Let's look in the
ABERCORN ROOM

When you get to the **GRAND STAIRCASE**, you are welcome to go up it and explore.

In this room there are lots of **RAF Squadron Crests**.

Each RAF Squadron has a crest with an image and a motto. You might have something similar with your school logo or your favourite sports team.

Can you spot the crests below? Which animal do they show?

Choose from these animals: **Horse, Owl, Bear, Rabbit, Tiger, Eagle**

Draw your own Squadron Crest

Which animal have you chosen and why?

There are more animals to be found on and around the staircase.

Can you find the following animals?

WHALES

A couple of things on this staircase have connections to the sea. Look at the stained glass windows which have coral in them.

How many whales can you find?

LIONS

We have already seen some lions in the Entrance Hall, and here are a few more.

How many lions can you find?

MAN

Not all animals have fur or live in the sea... humans are animals too. This man's face is hiding somewhere around the staircase.

Can you find him?
