#### CREATE YOUR OWN TRAIL

**Create your own trail of Bentley Priory Museum.**

**You could design your own from scratch, or you could use the template we have provided.**

Why not have a look at some of the trails we have available at the Museum.

We have themed them to explore different things - the history of the building, animal and natural images on display, and outdoor areas such as our garden and Cold War bunker.

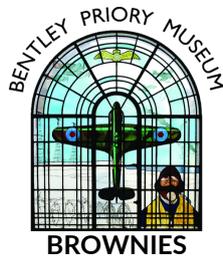

We like to use our trails to help visitors spot things that they might not ordinarily notice so try and be creative when you're choosing what to highlight!

For instance, don't forget to look up! You might find something hidden away in the corners or in the ceiling.

Can you think of a question for each gallery in the Museum?

You could encourage your respondents to give answers in different forms - writing and drawing.
